Complete Logistics Solutions

Receipt of goods

We collect the goods from the sender and deliver them to the collection storage at the agreed time.

Collection storage

Shipments from different senders are stored and sorted on trucks according to the delivery area. If necessary, we can handle the export customs clearance of goods as well.

Goods transport

Our modern vehicle fleet guarantees a high-quality, fast and efficient transport of goods. We can handle the import customs clearance of goods in the country of destination, if necessary.

Delivery of goods

The goods are delivered to the recipients, either to a collection storage or to an agreed address, in the country of destination.
